Director of Special Services

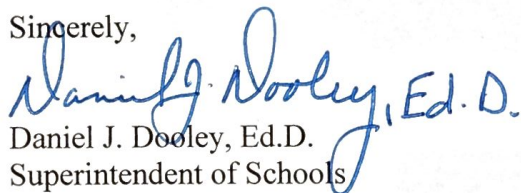

October 31, 2017

Dear Second Grade Parents (Rm: 119; Ms. McHale):

After an elevated reading of potential mold/air quality; our maintenance and custodial staff have worked diligently under the direction of the Cumberland County Board of Health and Epic Environmental Services, LLC to mitigate any and all air quality concerns. Proceeding all mitigation, earlier today we have been ensured that all students will be safe to return back to their classroom tomorrow as the air quality test met all standards of quality.

Of you have any additional questions or concerns, please do not hesitate to reach out to me directly at (856) 785-0840 ext 1137.

Sincerely,

Daniel J. Dooley, Ed.D.
Superintendent of Schools
